

To: High School Principal, Guidance Counselor or Teacher

Re: Scholarship Awards Program

Many students are now searching for their colleges of choice. The Graphic Communications Scholarship, Award and Career Advancement Foundation, Inc., a 501(c)3 not-for-profit organization, is once again reaching out to students, high schools and colleges to make known the availability of scholarships to those studying for the ever challenging and exciting careers within our graphic communications industry.

Over recent years, our Foundation has extended scholarships to many high school seniors enrolled in graphic communications programs. For the coming academic year, we expect to reach an even higher goal relative to the number of financial scholarships awarded. To achieve this ambitious undertaking, we kindly ask that you inform your students about the array of resources available through our Foundation.

Graduating high school students who have been accepted into any college in the country, and are pursuing an education in graphic communications from the following areas, should apply;

**IN NEW YORK:**

**NEW YORK CITY - LONG ISLAND - ROCKLAND - WESTCHESTER**

**IN NEW JERSEY:**

**BERGEN AND UNION COUNTIES**

Please visit our website [www.gcscholarships.org](http://www.gcscholarships.org) to examine in detail the many goals and accomplishments of our Foundation. You and your students can log onto our website to review the scholarship application criteria and download the form.

Your ability to communicate to your students the availability of funding is essential to our success. Our Foundation would welcome the opportunity to make a difference in the lives of qualified young people wishing to pursue a career in our dynamic industry.

Looking forward to hearing from you soon.
